COURSE SCHEDULE/TENTATIVE TIMELINE:

Wednesdays 18:00-20:50, September 5 – December 5

STUDENT RESPONSIBILITIES:

- In addition to class time, students are expected to invest a minimum of 6 hours in the completion of projects. This will involve shooting both on and off campus, as well as additional time in the editing lab.
- Inappropriate use of the equipment or lab computers may be grounds for dismissal from the course.
- Equipment must be returned by a specified due date in order to allow other students access to it.
- All equipment must be kept clean and in working condition.
- In order for group film projects to succeed it is essential that students respect the time of their collaborators and overcome the urge to procrastinate on due dates. Each group project must be carefully planned and presented to the instructor no later than one week prior to shooting. In addition to being mindful of collaborators it is also important that students respect any and every workspace.
- As the semester progresses there will be time in each class for editing projects and troubleshooting. Though this time is an important part of the learning process, it should not be relied upon as the primary editing sessions for the completion of projects.
- The use of images, footage, audio or otherwise that has been sourced elsewhere qualifies as plagiarism. The coursework requires original work that occurs during the semester. Any images that students have gathered prior to this course must be cleared with the instructor before they are used.
